Professional Experience

1) Online Admission System

Role: Developer/Team Member

Description:
Online Admission System is a Java Full Stack with Angular project which has been done during my training period. The Project had 6 modules in which I have been assigned to Course module. Course module would be responsible for managing the program's curriculum and course offerings. This module would include API's for retrieving course information, enrolling in courses, and viewing course schedules.

Environment: Operating System: Windows OS
Languages: Java, HTML, CSS, Angular
Database: PostgreSQL
Tools: Spring Tool Suite, VS Code.

2) Agent's Portal

Role: Developer/Team Member

Description:
Agent's Portal Application is aimed to develop a comprehensive web-based platform to empower agents across diverse industries in managing their tasks, accessing crucial information, and delivering exceptional customer service. The primary objective was to create a unified interface that would optimize workflow efficiency, faster better communication, and facilitate seamless collaboration between agents and their clients and team members.

Environment: Mendix Studio Pro.

3) Pet Insurance Application

Role: Developer/Team Member

Description:
Pet Insurance Application is aimed to develop users to manage their pet insurance policies and claims. The application should have features like user registration, Policy creation, policy management (e.g., Updating Coverage) claim submission, and claims tracking. It should also include functionalities to calculate premiums based on various factors like pet age breed and implement a user-friendly interface for easy navigation and seamless user experience.

Environment: Mendix Studio Pro.

Internships

- Worked as an Intern at 9Rays Technology as a web developer **(Feb 2021-May2021)**.
  Developed web applications using CSS, HTML, and Angular to enhance functionality and user experience on web pages. Redesigned and developed an existing website. Gained knowledge of Adobe Photoshop to create and edit images.
